EZ Roller System

800/245-0199

www.hsi-service.com

EASY TO STORE

QUICK TO USE

JOB IS COMPLETE

How does it work?

The EZ Roller rolls your Aqua-Barriers in minutes using just 2 people! Providing an even roll every time due to its double ratchet roller relationship. After tucking a small portion of the barrier into the slotted roller and inserting both ratchet arms you move the handle bars in opposite directions. The device rolls forward rolling up your Aqua-Barriers in just minutes.
